

**WEBER**  
*Technik pur*

**WEBER GMBH**  
*... so that technology works.*

Certified according to  
DIN EN ISO 9001

## **WEBER – Technik pur** **Technology with passion.**

Since 1979 WEBER has stood for innovative solutions in future-oriented technology. We develop, design and produce these solutions for a large number of well-known customers, spanning the industries of mechanical engineering, medical technology, commercial vehicle and automotive technology, as well as many other industry branches.

We realize your projects from planning and design, through development and testing of electronics, to production, installation and

on-site commissioning of manufacturing lines. We are your partner throughout all project phases.

Furthermore, we offer a unique technological consistency:

We optimize your products at our flexibly accredited WEBER test center. Here we run the most diverse environmental simulations.

By crosslinking of all of our business divisions we can offer a complete project handling from a single source: WEBER.

## ENGINEERING

**We arrange for smooth production.**

- ▾ Embedded software development
- ▾ Mechanical product design
- ▾ Mechanical engineering design
- ▾ Control engineering
- ▾ Project, test & error Management
- ▾ Quality management
- ▾ Testing
- ▾ (Module, Integration, System)
- ▾ Tool design
- ▾ Industrial Engineering
- ▾ Electrical design
- ▾ System Engineering
- ▾ Business IT
- ▾ Cable harness development
- ▾ Engineering along the V-Model

# AUTOMATION

## Fascinating solutions for smooth production.

- ▶ Assembly systems
- ▶ Customised automation
- ▶ Robotics
- ▶ Test rigs In-line, End-of-line, Stand-alone
- ▶ Commissioning & start-up support
- ▶ Maintenance, assembly and service
- ▶ Equipment and devices
- ▶ Prototype and sample construction
- ▶ Control cabinet construction
- ▶ Database management
- ▶ Machine Vision

### Our industries

e.g. mechanical engineering, medical technology, commercial vehicles and automotive, consumer, vacuum and food industry.

More test procedures on request.

## PRÜFZENTRUM

### Preparing your products for all challenges.

- ▾ Temperature and climate tests
- ▾ Temperature shock air/air, splash water, immersion
- ▾ Vibration and mechanical shock tests
- ▾ Electrical tests
- ▾ Corrosion tests
- ▾ Chemical resistance tests
- ▾ Dust tests
- ▾ Water tests

Accredited test laboratory according to DIN EN ISO/IEC 17025. The accreditation only applies to the test methods listed in the document D-PL-18720-01-00.

Approved according to §7 SprengG [German Explosives Act] for handling pyrotechnical actuators and safety equipment (e.g. airbags).
