

Product design from concept to prototypes up to start of production.

METHODS & TOOLS

- ▼ Quality management methods (design FMEA, process-FMEA using Apis IQ-Software)
- ▼ CAD tools (CATIA V5, Pro/ENGINEER / Creo, Siemens NX, SOLIDWORKS, Solid Edge)
- ▼ FEM simulation
- ▼ Model based dimensioning (GPS)
- ▼ Set up of specific customer environments and standards
- ▼ Database connection to customers, OEMs and checker tools (HQM, Q-Checker)
- ▼ Data transmission by DXM, VPN or WEBER Share
- ▼ TeamViewer and Skype Business
- ▼ PDM systems including SAP/R3
